

The PACE (Professional Activities Committees for Engineers) and the GOLD Committee (Graduates of the Last Decade), present
A Professional Development Seminar by
Carl Selinger
**“Stuff You Don’t Learn in Engineering School:
Skills for Success in the Real World”**

<http://www.carlselinger.com/seminars.html/>

Contributing Editor, IEEE Spectrum Magazine

Carl's seminars, articles and books help younger engineers and emerging project managers - indeed, all professionals -- learn the non-technical soft skills that are important to be more effective and happier in the real world. These skills include making decisions, setting priorities, running meetings, speaking, writing and listening better, leading teams, dealing with stress and having fun, and understanding themselves and others.

DATE: October 8th
TIME: 6:00 - 8:00 PM
PLACE: 1784 Science Center Dr., University Place, Bennion Student Union Building, Multipurpose Room (2nd floor, upstairs).
